SUMMARY:

Front-End Development trainee (B.Sc. CS, exp. 2027) with 5+ hands-on projects in HTML5, CSS3, JavaScript, and React.js. Certified by Eduzah Academy (2026). Seeking a junior/internship role to contribute to responsive, user-centric web products.

EDUCATION:

The Egyptian E-Learning University

Bachelor of Science in Computer Science & Information Technology

Expected Graduation: 2027

COURSES & CERTIFICATIONS:

- **Programming Fundamentals – Elzero Web School (06-2026)**
 - **Certified Front-End Development Trainee – Eduzah Academy (04-2026)**
 - **Graphic Design – ITI (06-2025)**
 - **Microsoft Office & Excel – British Center (08-2025)**
 - **Human Development – British Center (08-2025)**
 - **English Language – British Center (08-2025)**
-

CORE COMPETENCIES:

- **Web Technologies:**
 - HTML5
 - CSS3
 - JavaScript (ES6+)
 - React.js
 - Bootstrap
 - **Design & Architecture:**
 - Responsive UI/UX Design
 - Mobile-First Development
 - Graphic Design
 - **Tools & Programming:**
 - C++ (Foundational)
 - DOM Manipulation
 - Web Performance Optimization
 - **Soft Skills:**
 - Analytical Problem Solving
 - Agile Team Collaboration
 - Fast Learning
 - Cross-functional Communication
-

TECHNICAL PROJECTS:

Dental Clinic Web Application | HTML5, CSS3, JavaScript

- Built a mobile-first dental clinic web app using HTML5, CSS3, and JavaScript, achieving seamless responsiveness across 3 device breakpoints (mobile, tablet, desktop) — reduced layout reflow issues by refactoring CSS grid structure.

- Designed a clean, intuitive UI layout integrating dynamic appointment booking sections to enhance user engagement and digital accessibility.
- **Link:**

Secure Authentication Interface | HTML, CSS, JavaScript

- Developed a secure multi-page authentication system (login + registration) with real-time client-side form validation using vanilla JavaScript — reduced invalid form submissions by eliminating unvalidated inputs and enforcing regex-based field checks.
- Optimized form submission workflows, preventing invalid data entry and improving overall front-end security and user data accuracy.
- **Link:**

Dynamic Personal Portfolio | HTML, CSS, JavaScript

- Built and deployed a comprehensive personal digital portfolio to effectively showcase technical competencies and project architectures.
- Implemented modern CSS styling and JavaScript DOM manipulation to create smooth, interactive user experiences with optimized navigation flows.
- **Link:**

JavaScript Web Calculator | Vanilla JavaScript (ES6+)

- Built a stateful web calculator using Vanilla JavaScript (ES6+) — implemented event-driven architecture with dynamic DOM updates, supporting 4 arithmetic operations and edge-case error handling (division by zero, chained operations).
- Utilized event listeners and dynamic state management to ensure accurate, immediate output rendering and error handling.
- **Link:**

Promotional Landing Page | HTML5, CSS3, Bootstrap

- Created a modern, visually appealing landing page by applying industry best practices in responsive design and typography.
- Maximized layout consistency and load speed through efficient CSS structuring and responsive grid systems.
- Optimized page load by reducing CSS redundancy and applying efficient Bootstrap grid — achieved clean Lighthouse performance score.
